The Havasu 4 Wheelers **TRAIL TALK**

YOUR MONTHLY CLUB NEWSLETTER

November 2019

A FAMILY FOUR-WHEELING CLUB DEDICATED TO THE MOTTO "TREAD LIGHTLY!"

President's Corner

Let me start out by genuinely thanking each of our members who have served or are currently serving in our armed services. I am thankful for all the men and women of this nation who are willing to serve and sacrifice to keep this great country FREE!!!!

You can thank our veterans by taking part in the Veteran's Day Parade, November 11, 2019. Decorate your jeeps and join the celebration. Jerry Kuhnle is coordinating this club event.

We will be holding our annual Turkey Roast Thursday November 7, 2019 at SARA Park Rodeo Grounds. Joella Bruno and Cheri Lansing are hosting this year. Let's help them out by signing up to bring a dish or cook a turkey or ham. There will be appetizers at 4:00 and dinner at 5:00. This is a great opportunity to come out and get to know your club members, please mark your calendar.

Speaking of marking your calendar, don't forget that the club's general membership meetings for November and December will be the third Thursday because of the holidays.

There are many exciting runs scheduled for this month and more to be added. There are all levels of runs available, so the opportunity is there for everyone to have fun and hit the trails. By the way, now is a great time to sign up to be a Trail Boss! If you are interested, please call Mike Yahrmarkt.

This month we also give thanks to all the blessings bestowed upon us. Let us think of good health, good friends and always good travels.

Jeep saying: Difficult roads often lead to beautiful destinations.

Happy Thanksgiving,
Julie

Also, please remember our teen age kids
as well as the little ones.

Chalk Hill's 10/18 2019 Mike Yahrmarkt

Located on the California side of Lake Havasu across from Site Six are the Chalk Cliffs, large gray/white formations comprised of Kaolinite, a soft rock produced by dormant hot springs which once percolated through cracks in the mountains. When wet, the white clay has the consistency and feel equivalent of a mud mask!

The Chalk Cliffs are most impressive early in the morning and in late afternoons, as low sunlight illuminates the massive rock face in stark contrast to the surrounding topography. Researched and written by Pat Maskell

Pics by: Joyce Stephens and Pat Maskell, Ride by: Mikey

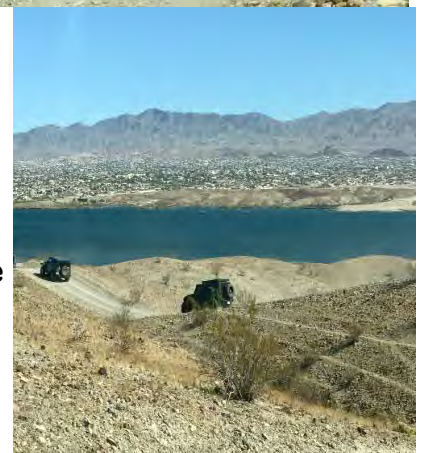

13 jeeps departed from scenic turnout at 8am on a beautiful day. We lost 1 jeep to the death wobble, the rest continued on.

We had some new members and some who were doing Chalk Hills for the first time, which makes a fun run for me.

The views were fantastic and we had a couple of challenges thrown in to make it interesting. A missed turn proved to be the highlight of the day.

Thanks to Ladell and Judy Olson for tail-gunning
Mike

MOAB 2020

Event Information

Event Dates

May 3rd thru May 9th, 2020

Trail Dates

May 4,5,6,7,8

Suggested RV Park

Spanish Trail RV Park- call soon
435-259-2411

Motels with detached
trailer parking.

Rustic Inn- waiting list only
425-259-6177

Super 8 Motel- group rate good until June 20
\$139 / night
435-259-8868

Moab Valley Inn- \$140 / night group rate
800-831-6622 code Havasu19

With all reservations please indicate that you are with the **Havasupai 4 Wheelers**
Please make your reservations as soon as possible.

We hope to provide trail leaders every day with 3 levels of trails. At the February and March meeting, we will have event sign-up sheets that will include your requests regarding difficulty level desired so that we can assign trail leaders to the appropriate trails.

At the April club meeting, the trail lists will be available and the participants will be asked to provide the appropriate BLM Fees for each trail signed up for. We will also provide information for a Sunday night and Friday night mixer along with the Pot Luck sign in at the April meeting.

Monday - Friday 8am - 5pm www.accurateautocareaz.com

Bar I L to Cottonwood, Oct 14 Rodger Melton

Eight rigs and 11 members left from Terrible's and exited On Alamo Road then to Boriana Mine Rd. Six miles later we turned onto Mountain View Rd to enjoy the scenery and solitude of the Hualapai foothills. Next we stopped at the old Bar I L ranch house and poked around before heading out the pasture and a rougher trail. Lunch was in a wash before we turned right on the Cottonwood Loop trail. This took us back to MV Rd and the air-up at Alamo Rd by 1400 hrs. Thanks to Joe Tenney for Tail-gunning, and the Jacksons, Neumans, and Donna Warren for the pre-run/trimming work!

Automatic External Defibrillator

If you want to carry one of the club's Automatic External Defibrillators (AED's) on a run, please contact Mike MacLean and make arrangements to check one out before your run.

Thanks, Mike Yahrmarkt
Run Chairman

Some Moderate Runs are More Moderate Than Others

During the Havasu 4 Wheelers formative years, someone (someone's) decided that it would be good to let members know in advance how difficult a run would be before they decided to sign up. They understood that some of the drivers would overreach...and they didn't even know me back then. The club member instrumental in writing a set of guidelines was named Marvin...sometimes called Moderate Marvin. You can now find Moderate Marvin's rating system under *LINKS* on the club's web site.

The club's run descriptions says a 3.00 run is classified as an "easiest moderate" (a mommy- car run), a 3.25 run as a "moderate" (I get this), a 3.50 as a "harder moderate", and a 3.75 run as "hardest moderate". I guess a 4.00 run should be described as a "seriously most hardest moderate." A 5.0 run would mean you are going to walk home.

I never even considered that moderate could be less or more. I just thought moderate was just sort of, well...moderate. (What ever.) I've always thought a one to ten, instead of a decimal (or a mixed number) rating system, might be easier to understand. When you think about it, the difference between 3.00 and 3.25 is only one fourth of one, which is considerably less than a most seriously moderate amount.

I once asked one of our esteemed run leaders what's shaking with the moderate stuff. He explained to me that I'm the only one that doesn't get it, that when he says that a creosote plant is of moderate height, everyone (except me) knows what he means, that the plant is shorter than tall and taller than short...***moderate!*** Put that way, I get it. I do always listen to him...he knows a seriously moderate amount of stuff (and at least one plant).

Now that I'm less moderately confused, I'm going to sign up for a harder more moderate run. (or not)

Leland Lott
(jeep driver)

Cow Bell Award

The Cow Bell this time goes to Chuck Jackson for losing a tail light on Early Times run

No Bell Award

The No Bell this time goes to Julie Jackson because the broken tail light was on her side

REMEMBER

If you have a 4 Wheeling picture, article, or a even a joke you'd like to share, please submit it to Tim & Pat Maskell, Newsletter Editors, at: newsletter@havasu4wheelers.org. Please no flipped over vehicles, off-color jokes or insensitive dialog. We're always looking for good stuff.

Tim & Pat

JEEP CONVERSATIONS

1st Driver: Is it true that the old miners sometimes ate burrows?

2nd Driver: Yep. They made burritos.

1st Driver: Ya know, that's a really old joke.

1st Driver: Ya know, I'm really old.

1st Driver: Why didn't you try to crawl over Psycho Falls?

2nd Driver: I'm sober.

1st Driver: That looks like a really tough crawl, don't ya think...Ehh?

2nd Driver: I think you might be from Canada... Ehh?

1st Driver: Three years ago we saw a turtle here. I bet he's still here.

2nd Driver: After three years?

1st Driver: Yeah, they walk really slow. Their legs on one side is shorter than the other side. They go in circles.

Bruce and Kathlyne Speirs stop at a favorite club spot, MILT'S STOP & EAT in Moab UT

Overheard Driver's Conversation

Driver: When I got home after our Chalk Hills run, my wife cooked a Himalayan Possum for supper.

2nd Driver: Where did she find a Himalayan Possum?

Driver: She said she found 'him-a-laying-in' the road.

2nd driver: Was he good?

Driver: Nope, I think he was just playing dead.

Leland Lott
(Jeep Driver)

One More....

Tail Gunner: "We have a motorcycle behind us. We probably should let him pass. It should be easy for him.

He's just a side-by-side with only one side."

Run Leader: "Good. Wave him by."

- HAVASU 4 WHEELERS TRAIL RATINGS -

- Mandatory Vehicle Equipment - All vehicles on *H4W* runs must be 4-wheel drive & equipped with a CB radio, fire extinguisher, first aid kit, tow straps, and front and rear tow hooks or safe hitching point all in working order.

RATING	DESCRIPTION
1	EASIEST: Passable by stock vehicles. Gentle fairly wide grades.
2	EASY: Use of 2 wheel and some 4-wheel drive. Trail may have some rocks, loose road surface, and ruts but a reasonable line for driving.
3	EASIEST MODERATE: 4-wheel drive with aggressive tire treads. Expect a rough road with rocks and sand that requires lower tire pressure. Substantial sections of single lane.
3¼	MODERATE: Some 4 wheel driving experience needed. Same as above with some use of high and low range gearing. These trails have a rough, rutted surface, rocks and deep sand. Sections may be steep enough to cause traction problems, narrow shelf roads with steep drop-offs and tight clearance between rocks.
3½	HARDER MODERATE: For experienced drivers. At least a 2" lift and 33' tires with aggressive tire tread, one locked differential, high and low range gearing. Potentially dangerous, large rocks, ruts, steep slopes, loose surface and narrow clearances that need to be negotiated.
3¾	HARDEST MODERATE: Skilled experienced drivers only. Same as above with both differentials locked, some strapping/winching. Very challenging sections, extremely steep grades, loose surfaces, large rocks, deep ruts and tight clearances.
4	DIFFICULT: Highly skilled experienced drivers only. Same as above with belly up, 4 to 1 transfer case or equivalent, skid plates, beefed up axles and suspension system. Probable strapping/winching. Vehicle width and wheelbase should be considered. Possible body damage.
5	HARD: All of the above. Probable body damage.
