The Havasu 4 Wheelers **TRAIL TALK**

YOUR MONTHLY CLUB NEWSLETTER

May 2020

A FAMILY FOUR-WHEELING CLUB DEDICATED TO THE MOTTO "TREAD LIGHTLY!"

President's Corner

I hope everyone had a great time jeeping with the club last season, I know I did and other than a little touch up paint, I can still use my jeep. The pandemic has been catastrophic to our economy and our club functions as well, so I will continue to support our local business folks and am looking forward to a fresh start on next season's jeep adventures. A special thank you to our run leaders who have done a great job keeping us occupied and safe during these difficult times, they are one of the reasons this club is outstanding. And while on the subject, a big thank you to all the club's officers and volunteers behind the scenes for all their work making the club function smoothly. I hope everyone has a safe summer and will see you all again in September.

Upcoming Club Runs (1-5 rating)

Havasu 4 Wheelers will be dark for the summer and there have been no meetings the past two months so, we don't have a lot of club news just some trail pictures of some of the last runs of the season. Remember to send us your vacation pictures even if they are just in the back yard.

Have a great summer and stay healthy.

**Tim & Patty Maskell
newsletter@havasu4wheelers.org**

**Please Note: Please be at the departure location
20 minutes before the departure time.
Call Trail Boss if you are unable to attend.**

**Check the Havasu 4 Wheelers Website for updates and
meet places on runs.
www.havasu4wheelers.org**

Upper Jupiter / Hawk's Nest 4/6/2020

Buck Mountain / Scott's Well 4/13/2020

I led two similar runs, one on April 6th to Upper Jupiter, and the second to Buck Mountain/ Scott's Well. Both runs go up a canyon to the end, and then return. The Desert has a lot of blooming flowers and the runs offer a lot of great scenery. We did Hawks Nest at the end of Jupiter, a little more difficult than a 3.25, they all did great. A little whining, but good performance.

The second run started with Buck Mountain, visiting Yucca Mines, an Arrasta and an old cemetery. Next was Scott's Well. We had an incident on the way out of Scott's Well, but the whole crew pitched in, and it was resolved. Thanks to everyone for all the help. Tail gunner for the Jupiter run was Steve Wirick, for the Buck Mountain Run, Rob and Patti Glumack. Thanks for the fun company, and all the help from everyone.

Mike Yahrmarkt. (Havasu 4 Wheeler of the year). Woo-Hoo

Upper Jupiter

On April 6, I was on a jeep run to Upper Juniper & Hawks Nest. While descending from Upper Juniper after lunch, my jeep started pulling to the passenger side. Thoughts of a broken steering linkage, suspension problem, broken axel or broken u-joint filled my head. After a few minutes, I stopped to take a look. Since I was also the Tail-Gunner, I had the privilege to call the Trail Boss and 4-Wheeler of the Year, Mike Yahrmarkt to report that I had stopped with a flat front tire. My very first ever flat tire while off roading. The sidewall had split from wheel to tread. The 17 or so jeeps ahead of me were spread out quite a distance. But several nearby experienced drivers had the tools, knowledge and manpower to get my tire 35" tire changed and get me moving again. Thank You to all who pitched in and helped, especially Tim Maskell and Paul Stephens who did all the hard work for me.

Steve Wirick
H4W

Dean also lost a nut on his tie rod which was repaired by 2 guys but they had a lot of supervision.

MODERATE MARVIN'S REVENGE

There is a run listed in our clubs run inventory called Marvin's Revenge. Well, Moderate Marvin listed it at the bottom of the run inventory in the section called 'Terms and Conditions'. In fine print, on line thirty-two, It says, "Seriously?"

On this run there is a dry waterfall that is twenty feet tall, angled at thirty-two degrees, and has streaks of dried pink transmission fluid etched into its surface. It has fragments from a Yukon Gear 4340 Chrome moly axle, and a u-joint from a Tom Woods drive shaft wedged into its cracks. There is a carcass of a BF Goodrich KM2 tire, a busted Walker Evans cast aluminum bead locker wheel, a plastic Jesus that once rode on the dashboard of a Samurai, an operations manual of a Sikorsky s76b rescue helicopter, the skeleton of a long missing U.S. Army camel, a complete TJ 42 RLE transmission, assorted roller bearings from an Atlas transfer case, a shredded spare tire cover that says "Life Is Good", several Fox shock absorbers, assorted mufflers, and pieces of frayed winch lines, a back door from a four door JK, an old eight-track tape with George Jones singing "She Stopped Loving Him Today", a dry Kidde Fire extinguisher, a Terraflex long arm, a Rough Country belly-up pan, an empty MRE pack, a foot peg from a Harley Fat-Boy (I don't get it either), a rear bumper from a YJ that has a sticker on it that says "No Bad Days", a discharged M127A1 military flare, a broken red FireStick CB antenna, piston rings from an ARB air compressor, a faded losing 50/50 ticket, a weathered sweat shirt with Havasu 4 Wheelers embroidered on it, and a scratched CD with Toby singing "I Ain't As Good As I Once Was", all scattered around the base of the fall. At the top is one of Tom's creosote trees where a buzzard patiently waits.

Leland Lott
(Jeep Driver)

Note: Marvin dislikes the name, 'Moderate Marvin', he prefers 'Marvelous Marvin'.

- HAVASU 4 WHEELERS TRAIL RATINGS -

- Mandatory Vehicle Equipment - All vehicles on *H4W* runs must be 4-wheel drive & equipped with a CB radio, fire extinguisher, first aid kit, tow straps, and front and rear tow hooks or safe hitching point all in working order.

RATING	DESCRIPTION
1	EASIEST: Passable by stock vehicles. Gentle fairly wide grades.
2	EASY: Use of 2 wheel and some 4-wheel drive. Trail may have some rocks, loose road surface, and ruts but a reasonable line for driving.
3	EASIEST MODERATE: 4-wheel drive with aggressive tire treads. Expect a rough road with rocks and sand that requires lower tire pressure. Substantial sections of single lane.
3¼	MODERATE: Some 4 wheel driving experience needed. Same as above with some use of high and low range gearing. These trails have a rough, rutted surface, rocks and deep sand. Sections may be steep enough to cause traction problems, narrow shelf roads with steep drop-offs and tight clearance between rocks.
3½	HARDER MODERATE: For experienced drivers. At least a 2" lift and 33' tires with aggressive tire tread, one locked differential, high and low range gearing. Potentially dangerous, large rocks, ruts, steep slopes, loose surface and narrow clearances that need to be negotiated.
3¾	HARDEST MODERATE: Skilled experienced drivers only. Same as above with both differentials locked, some strapping/winching. Very challenging sections, extremely steep grades, loose surfaces, large rocks, deep ruts and tight clearances.
4	DIFFICULT: Highly skilled experienced drivers only. Same as above with belly up, 4 to 1 transfer case or equivalent, skid plates, beefed up axles and suspension system. Probable strapping/winching. Vehicle width and wheelbase should be considered. Possible body damage.
5	HARD: All of the above. Probable body damage.
