## ELECTIONS of BOARD MEMBERS

At the February meeting the Nominating Committee will present the new slate of officers for: President, Vice President, Secretary, Treasurer, Run Chair, Membership Chair, and 3 Members at Large. We have a lot of talented members in the club, so no matter how long you have been in the club please consider volunteering for one of these positions.

If you are not ready to step into a Board position, how about a committee position. There are always people ready to help you, plus it is a great way to get to know more people in the club. Still looking for a P.R. Person for the Club.

Please contact Paul Stephens (chairperson), Dave Bruno or Tom Bunnell if you want to help out the club or if you have any questions.

## Havasu 4 Wheeler of the Year

Every year the membership acknowledges the person, they feel has contributed the most to the club. Here are some pointers on how to make your selection for "Havasu 4 Wheeler of the Year". It is not an award for his or her off road driving skills. It should be based upon what they have contributed to the club during the past year. Are they active participating members **such as Board members, Committee members, activity chairs, run leaders, and behind the scene workers such as the webmaster and newsletter editor?** Are they ready to lend a helping hand? Do they get involved?

## Aubrey Loop 12-29-21

Everyone seemed to have a good time despite the trail being torn up which created a lot of bouncing, along with rocking & rolling. Part of this trail takes you past the Bill Williams Wilderness area and we were all shocked at how much damage the fire this summer did. Even though some vegetation is coming back it will be a number of years before it returns to pre-fire status. It was also amazing to see that there is a large area without trees, which you were never able to see because of the lower vegetation and leaves on the trees.

We did play on the Wall of Death which was conquered by Ladell O. and Jack B.

A big Thank You to Duane Gauthun for being my trusty tail gunner.

Willie Williams, trail boss

## - HAVASU 4 WHEELERS TRAIL RATINGS -

- Mandatory Vehicle Equipment - All vehicles on *H4W* runs must be 4-wheel drive & equipped with a CB radio, fire extinguisher, first aid kit, tow straps, and front and rear tow hooks or safe hitching point ..... all in working order.

RATING	DESCRIPTION
1	<b>EASIEST:</b> Passable by stock vehicles. Gentle fairly wide grades.
2	<b>EASY:</b> Use of 2 wheel and some 4-wheel drive. Trail may have some rocks, loose road surface, and ruts but a reasonable line for driving.
3	<b>EASIEST MODERATE:</b> 4-wheel drive with aggressive tire treads. Expect a rough road with rocks and sand that requires lower tire pressure. Substantial sections of single lane.
3¼	<b>MODERATE:</b> Some 4 wheel driving experience needed. Same as above with some use of high and low range gearing. These trails have a rough, rutted surface, rocks and deep sand. Sections may be steep enough to cause traction problems, narrow shelf roads with steep drop-offs and tight clearance between rocks.
3½	<b>HARDER MODERATE:</b> For experienced drivers. At least a 2" lift and 33' tires with aggressive tire tread, one locked differential, high and low range gearing. Potentially dangerous, large rocks, ruts, steep slopes, loose surface and narrow clearances that need to be negotiated.
3¾	<b>HARDEST MODERATE:</b> Skilled experienced drivers only. Same as above with both differentials locked, some strapping/winching. Very challenging sections, extremely steep grades, loose surfaces, large rocks, deep ruts and tight clearances.
4	<b>DIFFICULT:</b> Highly skilled experienced drivers only. Same as above with belly up, 4 to 1 transfer case or equivalent, skid plates, beefed up axles and suspension system. Probable strapping/winching. Vehicle width and wheelbase should be considered. Possible body damage.
5	<b>HARD:</b> All of the above. Probable body damage.
