# The Havasu 4 Wheelers **TRAIL TALK**

**YOUR MONTHLY CLUB NEWSLETTER**

December 2022

**A FAMILY FOUR-WHEELING CLUB DEDICATED TO THE MOTTO ..... "TREAD LIGHTLY!"**

## **P**resident's Corner

I am writing from the Navigator of the Seas cruise ship on the Royal Caribbean lines. We have had a wonderful trip and are heading back to the San Pedro, Ca. port. No off roading this trip but have seen wonderful sites in Mazatlán, Cabo San Lucas, and Puerto Vallarta.

We worked on several items prior to leaving:

1. Arlene is finishing up the planning for the Holiday Banquet. The last chance to sign up will be at the next General Meeting. If you can't attend, please get hold of Arlene at 951-733-7256.
2. We have volunteers for the nominations committee. Bill Roberds will chair with Trish Reister and Doris Hirt will help. Please contact one of these volunteers to put your name in for next year's board positions.
3. I have secured the Aquatic Center Rods and Relics Room for our 23-24 season, and I will send out the dates after the next board meeting.
4. Steve Locantore is researching the off road test(s) in Arizona and Utah and will let us know what is required at our next meeting.

I am hoping everyone had a great Thanksgiving and will have a great Christmas and holiday season.

See you at the next general meeting December 15<sup>th</sup>.

## A message from Cynde Choate's children.

Dear Havasu4wheelers,

I wanted to pass along my gratitude for the community, fun and friendship that you provided my parents, Doug and Cynde Choate. Cynde Choate passed away on Friday November 4th from end stage lung disease, heart failure and unfortunately complications of Covid. As you know Doug passed away 3 years ago. They enjoyed living over 20 years in Lake Havasu City. I

think the greatest joy they experienced was being apart of the Havasu 4 wheelers club. I would hear about the numerous trips, meetings and events that they attended over the years. They looked forward to those adventures so much. Of course, they also enjoyed "trickin" out their Jeep Rubicon with all the "essentials" needed to go on those adventures. Then there was the fun of who dented or scratched the Jeep, like you were supposed to climb over or between giant rock formations and not get any damage;).

I recently visited the bridge area where Doug's memorial brick was. It was so nice that he can be remembered by those who knew him that way. I plan to do something similar for my mom to with those memory bricks.

I will only be having a memorial service for my mom back in Michigan with close family and friends. I hope that when you think of Doug and Cynde Choate you have fond memories of their joking personalities. Please share this with your members that knew them.

Thank you,

Reggie Towl, Cynde's daughter and Doug's step daughter from MI

## - HAVASU 4 WHEELERS TRAIL RATINGS -

- Mandatory Vehicle Equipment - All vehicles on *H4W* runs must be 4-wheel drive & equipped with a CB radio, fire extinguisher, first aid kit, tow straps, and front and rear tow hooks or safe hitching point ..... all in working order.

RATING	DESCRIPTION
1	<b>EASIEST:</b> Passable by stock vehicles. Gentle fairly wide grades.
2	<b>EASY:</b> Use of 2 wheel and some 4-wheel drive. Trail may have some rocks, loose road surface, and ruts but a reasonable line for driving.
3	<b>EASIEST MODERATE:</b> 4-wheel drive with aggressive tire treads. Expect a rough road with rocks and sand that requires lower tire pressure. Substantial sections of single lane.
3¼	<b>MODERATE:</b> Some 4 wheel driving experience needed. Same as above with some use of high and low range gearing. These trails have a rough, rutted surface, rocks and deep sand. Sections may be steep enough to cause traction problems, narrow shelf roads with steep drop-offs and tight clearance between rocks.
3½	<b>HARDER MODERATE:</b> For experienced drivers. At least a 2" lift and 33' tires with aggressive tire tread, one locked differential, high and low range gearing. Potentially dangerous, large rocks, ruts, steep slopes, loose surface and narrow clearances that need to be negotiated.
3¾	<b>HARDEST MODERATE:</b> Skilled experienced drivers only. Same as above with both differentials locked, some strapping/winching. Very challenging sections, extremely steep grades, loose surfaces, large rocks, deep ruts and tight clearances.
4	<b>DIFFICULT:</b> Highly skilled experienced drivers only. Same as above with belly up, 4 to 1 transfer case or equivalent, skid plates, beefed up axles and suspension system. Probable strapping/winching. Vehicle width and wheelbase should be considered. Possible body damage.
5	<b>HARD:</b> All of the above. Probable body damage.
