# The Havasu 4 Wheelers **TRAIL TALK**

**YOUR MONTHLY CLUB NEWSLETTER**

Arizona  
March 2023

A FAMILY FOUR-WHEELING CLUB DEDICATED TO THE MOTTO ..... "TREAD LIGHTLY!"

## **P**resident's Corner

Another club month has passed and our trail leaders have led many great runs and the annual Hot Dog Run was again a great success. Many thanks to the Bruno's and their help that made the event special again.

Many thanks to Bill Roberds and the nomination committee for successfully getting the volunteers to run for election for the 2023-24 club season. Elections will be held at the next meeting on March 29<sup>th</sup> along with the presentation of awards for all volunteers, trail leaders, H4W board and the Havasu 4 Wheeler of the year so don't miss it.

The temperature is rising, and the off-road season is reaching it's peek. The desert should be blooming soon and the best time to get out is now. Watch the website for future runs and sign up, maybe even lead a run or two.

Thank you,  
Chris Storm, President

Members going to Moab:

Dear Friends,

Our Caring Community's continued support of our precious mission is always so touching, so meaningful. Many of our patients are taking things one day at a time at this stage of their life, and thanks to donors like you, we are able to be there for them.

Your recent gift of \$250.00 will be put to immediate use in support of patients and programs of Hospice of Havasu. Please accept our gratitude for the opportunity to lovingly meet the needs of all who come to us, regardless of their financial circumstances.

# Farewell Coffee & Donuts Party for the Bowen's and the Olson's February 18 at Chris & Arlene's

Four great friends of our club are starting new adventures and leaving us. Jim & Jane Bowen and Ladell & Judy Olson. You will be missed, Good Luck on your new journeys.

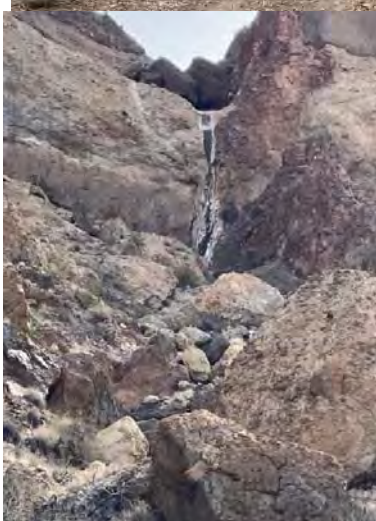

## Coffin Spring Run + Hike

On Friday, February 17, we had 9 vehicles with 16 members and 2 guests leave for Coffin Spring in the Turtle Mountains. We stopped at Charlie Brown's cabin to explore what is left, and we then went to the car corral to check out the old remnants and get pictures. We then continued to the trailhead for Coffin Spring where we had 12 hikers on a pretty day. The hike to the spring was fantastic and the scenery was great to see. We had lunch near the spring, which was completely dry this year. After our return from the hike we continued back to our starting point. Thank you to Brian Springer for tail gunning.

## Planet Mine Willie Williams 3-3-23

What a beautiful day for a jeep run.....sunshine and with the recent rain very little dust but a little bit of mud. All went well until we came across an unusual situation... wash out area on Planet Ranch Rd. After evaluating the situation, we came to the conclusion that it was doable. With the expert spotting of Mike Y all the jeeps, even 2 stock jeeps, made it thru with only a few bangs. Once we cleared a large rock from the trail the rest of the run was scenic as usual but no more surprises. I want to say a big Thank you to the members who trusted us and were willing to tackle the washout area.

Also a Thank you to Chris & Beryl Winchak for the wonderful job as trail gunner.

RATING	DESCRIPTION
1	<b>EASIEST:</b> Passable by stock vehicles. Gentle fairly wide grades.
2	<b>EASY:</b> Use of 2 wheel and some 4-wheel drive. Trail may have some rocks, loose road surface, and ruts but a reasonable line for driving.
3	<b>EASIEST MODERATE:</b> 4-wheel drive with aggressive tire treads. Expect a rough road with rocks and sand that requires lower tire pressure. Substantial sections of single lane.
3¼	<b>MODERATE:</b> Some 4 wheel driving experience needed. Same as above with some use of high and low range gearing. These trails have a rough, rutted surface, rocks and deep sand. Sections may be steep enough to cause traction problems, narrow shelf roads with steep drop-offs and tight clearance between rocks.
3½	<b>HARDER MODERATE:</b> For experienced drivers. At least a 2" lift and 33' tires with aggressive tire tread, one locked differential, high and low range gearing. Potentially dangerous, large rocks, ruts, steep slopes, loose surface and narrow clearances that need to be negotiated.
3¾	<b>HARDEST MODERATE:</b> Skilled experienced drivers only. Same as above with both differentials locked, some strapping/winching. Very challenging sections, extremely steep grades, loose surfaces, large rocks, deep ruts and tight clearances.
4	<b>DIFFICULT:</b> Highly skilled experienced drivers only. Same as above with belly up, 4 to 1 transfer case or equivalent, skid plates, beefed up axles and suspension system. Probable strapping/winching. Vehicle width and wheelbase should be considered. Possible body damage.
5	<b>HARD:</b> All of the above. Probable body damage.
