Your Monthly Club Newsletter

A FAMILY FOUR-WHEELING CLUB DEDICATED TO THE MOTTO "TREAD LIGHTLY!"

Hello H4W's,

Let me begin by thanking you for allowing me and the rest of the Board of Directors to drive this big Jeep called the Havasu 4 Wheelers. I never thought that when I joined this club in 2018, I would find myself in this position. I want to thank all the past presidents, board members, committee members and run leaders that have helped this organization get to the point of where it is today, which is a long way since 1993. And, I really want to thank the current board for all the support you've provided me.

As with any organization there are always challenges moving into a new year. Some of our challenges will be; maintaining our membership, remaining financially solvent, continuing with all the Jeep runs and adhering to the objectives stated in our by-laws. At the April Membership Meeting I will present our plan to address those items.

Our March meeting was great! We had a chance to thank all those who were crucial to the club. Believe it or not, we have 33 committee members. Too many to mention here but without them, the club doesn't function. Thanks to all the trail leaders who without them, we don't go anywhere. A special thanks to Mike Yahrmarkt, who again, ran the most runs, and to Ken Barriault and his Hot Dog crew for putting on another great event. E-Z Up's were a great touch! Man was it hot. How about the Men's Breakfast! Dave, how are you going to top that turnout? And, last but not least, the Havasu 4 Wheeler of the Year, Dave and Tammy Blake. Congratulations to both of you.

With the warmer weather the jeeping season begins to slow, however, we have several April runs on our event calendar. Remember to check the club website for updates. Blanding and Moab are fast approaching. Make sure to check your emails for the current status of the events or reach out to Bob Drew (Blanding) and Dave Blake (Moab). Chicken in the Park is April 15, if you haven't signed up, you should contact Joanne Malara.

Don't forget the April membership meeting. I hope to see all of you there.

Stay safe and stay cool

Steve Wirick Memorial Run led by
Ken Barriault

Rating 3.0 3/1/2026

On Sunday a few H4W joined our area Search and Rescue team to share memories of Steve Wirick on a run, which Ken led, to the Bowling Alley. As lunch was eaten we learned of Steve's very active life. We found out that he was once our own treasurer and when asked also became the Search and Rescue treasurer while also playing in a softball league and actively being a lifelong outdoorsman. He was usually quiet until an activity he enjoyed was mentioned and then would open up. Steve became infamous at last year's Hot Dog run when his front axle broke and was assisted by Ken and others trailering his very clean LJ out the next day. His son Keven and family were very happy to have all the groups of people Steve enjoyed there to celebrate his memory.

Thank you Bruce Freiman for the run summary and pictures.

Boriana Mine to the Lodge- Led by Rob Glumack 3.25
March 3, 2026

We had a great day for this run. 16 jeeps, 27 members, and 2 guests left Terribles at the I40 and headed to Alamo Road to air down and head up the Boriana mine road. The road had a few more washouts and bumps than usual but we all made it to the mine site. We passed on the processing plant and the goldfish pond and headed to the mine shaft. It seems making a very sharp right hand turn became a bigger problem than our trail boss anticipated, but all worked out in the end and most everybody went in the mine. From there we headed to our lunch spot in the pines and then up to the lodge. The BLM had a prescribed burn of Blue Tank and Bull Canyon which we could see from the higher elevation. We got spread out a bit but all made it to the lodge and then to Kingman for some food and beverage. Special thanks to Jack Burns for tail gunning and congratulations to Susie Land for completing her first "big" club run. Rob Glumack /Trail Boss

Early Times led by Ken Barriault
Rating 3.75 3/5/2026

According to the radio chatter, this was a trail named after Early West, a H4W member since 1998. The run included a few challenging obstacles, such as "Tip over Darryl" and "The Gate Keeper". It was fun to watch the jeeps and drivers take on the challenges. There were also some talented singers in the group who regaled us with a few choruses of "Convoy". Thanks for the entertainment guys. We had 12 jeeps and Jack Burns was tail gunner.

Tale told by Leslie Nehring

Upper Jupiter led by Mike Yahrmarkt Rating 3.25 3/9/2026

Our large group strung out and drove along the high line, before dropping into the canyon with Jupiter Mine. Saguaro cactus were very large and healthy. Lunch at the mine and Hawk's Nest on the way out. Great run! Pics and write-up by Patti Glumack

Chloride—Led by Rob Glumack

Rating 3.25 3/12/26

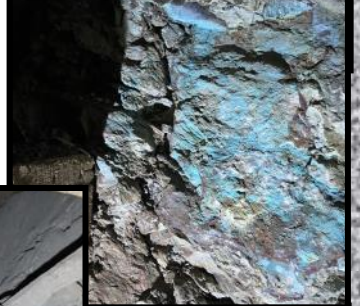

The run started at Terribles at I-40. 14 vehicles, 25 members, and 1 guest headed to Kingman and then north to Big Wash Road just past Chloride. We had a beautiful day to see the Cerbat Mtns as we climbed to over 6000' for our first stop at Windy Point campground. From there we worked our way down a section of shelf road with a few tight turns and off-camber spots, then stops at some old mine sites to explore. The last run stop was at the Roy Purcell murals, always a favorite. The run ended at the Yesterdays, Chlorides only remaining restaurant. Great day and an anniversary celebration.

**Rice CA Area Camping & Runs—Led by Mike Ahrens
Rating 2-3 3/14-21/26**

We along with a few other families dry camped south of Hwy 62. While there I lead three official runs going to... DTC Camp Iron Mtn & Granite Mtn (March 16), the Palen Pass Maneuver Area(March 18), and a tour of the Cadiz Valley and Amboy Crater areas (March 20). Pictures thanks to Ken Barriault, part of the camping crew.

The run went behind the lake on the California side, through Chemehuevi Indian reservation land, almost to Havasu Landing. Thanks to Ken Huckeba for the pictures. You captured the fun and beauty of the desert.

Lost Trails / Mine Shack

February 10, 2011

We had 19 Jeeps on this run. We started at Standard Wash at 9 am and proceeded to Lost Trails then headed south and hooked up with the mine shack trail. This made the run a little more interesting rather

than running the wash the entire way to the mine shack. We got to the shack about noon and proceeded to fire up the BBQ with the help of Ron Satterfield and Gary Wiskus, they also supplied the BBQ brickettes. We brought what we thought was enough hot dogs to feed everyone, which it was, but not by much. To our surprise we went through 60 hot dogs. After lunch we started back and stopped at another mine shack made out of tin. The weather was perfect blue sky and no wind. We came out at the scenic turn out and aired up about 3:30 pm. We all had a lot of fun and yes we will do this run again. It is nice to see that the cabin has not been vandalized it really shows people do respect our desert and we can all share it together.

Special thanks to Ron Satterfield and Gary Wiskus for helping with the BBQ, also with this large group we had a middle tail gunner Ron and Sally Satterfield and rear tail gunner Snake and Willie Williams.

HAVASU 4 WHEELERS, PROUD MEMBERS

- HAVASU 4 WHEELERS TRAIL RATINGS -

- Mandatory Vehicle Equipment - All vehicles on H4W runs must be 4-wheel drive & equipped with a CB radio, fire extinguisher, first aid kit, tow straps, and front and rear tow hooks or safe hitching point all in working order.

RATING	DESCRIPTION
1	EASIEST: Passable by stock vehicles. Gentle fairly wide grades.
2	EASY: Use of 2 wheel and some 4-wheel drive. Trail may have some rocks, loose road surface, and ruts but a reasonable line for driving.
3	EASIEST MODERATE: 4-wheel drive with aggressive tire treads. Expect a rough road with rocks and sand that requires lower tire pressure. Substantial sections of single lane.
3¼	MODERATE: Some 4 wheel driving experience needed. Same as above with some use of high and low range gearing. These trails have a rough, rutted surface, rocks and deep sand. Sections may be steep enough to cause traction problems, narrow shelf roads with steep drop-offs and tight clearance between rocks.
3½	HARDER MODERATE: For experienced drivers. At least a 2" lift and 33' tires with aggressive tire tread, one locked differential, high and low range gearing. Potentially dangerous, large rocks, ruts, steep slopes, loose surface and narrow clearances that need to be negotiated.
3¾	HARDEST MODERATE: Skilled experienced drivers only. Same as above with both differentials locked, some strapping/winchng. Very challenging sections, extremely steep grades, loose surfaces, large rocks, deep ruts and tight clearances.
4	DIFFICULT: Highly skilled experienced drivers only. Same as above with belly up, 4 to 1 transfer case or equivalent, skid plates, beefed up axles and suspension system. Probable strapping/winchng. Vehicle width and wheelbase should be considered. Possible body damage.
5	HARD: All of the above. Probable body damage.
